Development & Marketing Signage Brochure

2021

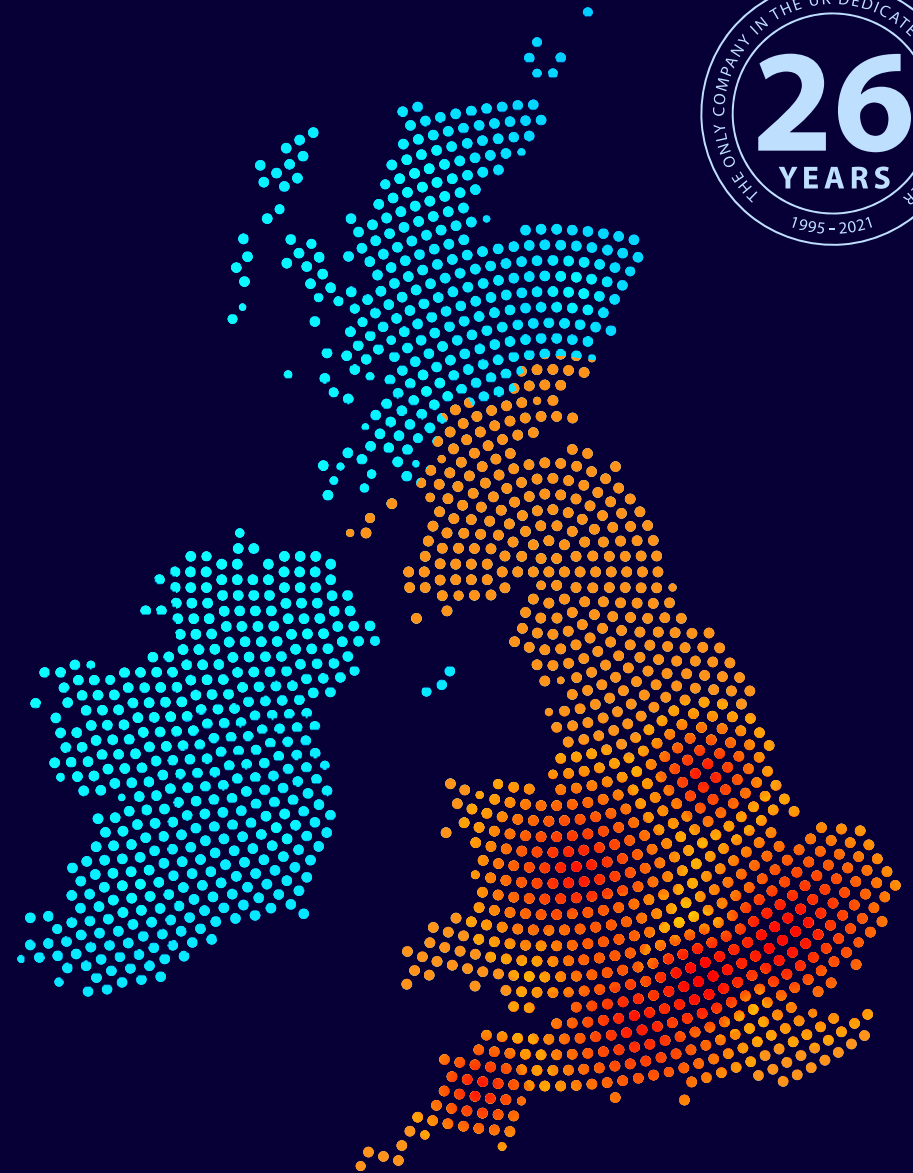

Why choose Signs Direct?

For over 26 years we have manufactured and installed signage solely for developers and the construction industry. We understand their business needs and do not work for any other business sector.

With operating premises in Alton, Hampshire and Nuneaton, Warwickshire we provide our clients with genuine national coverage throughout England, Wales and every region of the UK. Moreover, we have re-branded most of our customers' regional offices across the UK.

All products are manufactured at our 35,000 sqft main facility in Alton, Hampshire to ensure consistency and quality. We own and operate the very latest printing equipment meaning your corporate brand will be maintained to the correct standard throughout your product range and on every site in the UK.

We are unique in that we directly employ and train all our installation engineers giving us full control and ensuring that all installations adhere to our strict structural guidelines. We never subcontract any of our installations and each of our teams is led by a fully qualified and experienced SSSTS supervisor.

" The Only National Signage Company Dedicated To The Developer "

Qualifications & Accreditations

Health and Safety is paramount not only to the safety of our staff but of other site workers and the general public. We take our responsibility for Health and Safety very seriously, we are constantly updating our skills and accreditations.

Just some of our Commercial Partnerships

Our dedication shines through...

"Bloor Homes has been working in partnership with Signs Direct for 5 years supplying our signage nationally during which time we've received exemplary service. We view them as a key supply chain partner and look forward to working with them over the coming years."

Robert Peate
Group Category Executive

"You and your team are a shining light of how supply chain partnerships should work and these are the sorts of relationships I want to ensure we maximise as a group. Whilst we always need to ensure the commercial offer is in the right place, this agreement can only grow from strength to strength."

David O'Keeffe
Group Supply Chain Manager

"Wow, what can I say, your guys are just amazing. They worked tirelessly to ensure everything was fitted perfectly. What a superb team you have! Absolutely delighted"

Louise Whitney
Sales Manager

"We have used the services of Signs Direct (UK) Ltd for over 12 years as they are the leading and only dedicated signage suppliers for developers. Signs Direct give us an exceptional service, their signs are of the highest quality, they deliver and install within very short lead times and all their installation teams are fully qualified and site aware. I would have no hesitation in recommending Signs Direct to anyone, our working partnership works very well and look forward to it continuing for many years."

Nicole Creighton
Field Sales Manager

"I've worked with Peter and his team at Signs Direct for over 10 years now. I have always found them extremely helpful and will always pull out all the stops to make things happen with the timescales specified and in the housing industry, some timescales are quite tight! The professionalism and efficiency has always been second to none and the prices are extremely competitive - I don't think there is another signage company that could match their costs. I would recommend Signs Direct to anyone looking for a great service and value for money."
